EXPERIENCE

Freelance FrontEnd Developer

Fantasia Cafe

05/2025 Cicero, United States

- Designed and developed a modern, minimalist landing page for **Fantasia Cafe**, improving its **online presence** and user experience.
- Created a clean, user-friendly layout, making it **easier for customers** to explore the café and its offerings.
- Attracted nearly **2,000 monthly visitors** and generated **over 3,900 page views**.
- Maintained a 45% to 35% bounce rate, while delivering a responsive and optimized browsing experience.

Freelance FrontEnd Developer

Sarita's Flower Shop

08/2024 Cicero, United States

- Developed a website for **Sarita's Flower Shop**, integrating **dynamic product displays**, resulting in a **consistent 100 visitors** per month.
- Enhanced user experience, reducing bounce rate by **49%** and increasing page views by **66%** through **intuitive navigation, faster load times, and mobile optimization**.
- Boosted organic search visibility, leading to a **30% increase in website traffic** by implementing **SEO best practices**, including metadata optimization, alt tags, and structured content.

EDUCATION

Self-Taught Front-End Development

Independent Study

03/2023

- Completed courses from platforms such as **Udemy, freeCodeCamp**, and official documentation.
- Developed multiple **freelance projects**, applying modern front-end technologies and best practices.
- Focused on **responsive design, performance optimization, and user experience (UX/UI)**.

SUMMARY

Frontend developer who turns cold outreach into shipped products — I've approached local businesses directly, pitched and built their websites from scratch, and delivered measurable growth in traffic and customer inquiries. Comfortable owning a project end-to-end: client conversation, design, build, and post-launch results. Currently focused on React, Astro, and Tailwind, with a track record of sites that perform as well as they look.

KEY ACHIEVEMENTS

Landing page success

Consistently attracted 2000 monthly visitors, surpassing around 24,000 total since launch.

Bounce rate reduction

Reduced website bounce rate by 49% through optimization.

Enhanced page views

Increased page views by 66% with UX enhancements.

Traffic growth boost

Doubled web traffic by creating high-performance sites.

SKILLS

CSS Figma Git GitHub

HTML JavaScript React

Typescript Tailwind

Visual Studio Code NextJs

Firebase Astro.js
